

TAYUTH PLEERAT

COMPUTER ENGINEERING STUDENT

ABOUT ME

I am a computer engineering student interested in web development, networking and cyber security. I am experienced in full-stack web developing. I need to improve my in-real-life working skills from this internship. Therefore, I hope to be practicing and working with you in the future.

EXPERIENCES

FRONT-END DEVELOPER FOR SEA MUSIC

2022 | KMUTT

Developed music website with a team which our goals are to learn universal design of web development for blind people. In front-end section, I developed SpotifyAPI to communicate between our front-end and Spotify server. And I also used Robot Framework to test our website quality.

FRONT-END DEVELOPER FOR BANGMOD HACKATHON

2022 | KMUTT

Developed competitive programming website with a team. In front-end section, I developed contact part of our website for the competitors using Tailwind CSS.

FULL-STACK DEVELOPER FOR BITNANCE

2021 | KMUTT

Developed cryptocurrency simulation website with a team for learning database development. In front-end section, I developed admin session for user management using bootstrap. In back-end section, I developed database using SQL.
